

## PROFILE

Hi, I'm Shabbir, a passionate and dedicated software developer with expertise in both Android and web development. As a fresher in the IT field, I am eager to apply my skills and contribute to innovative projects. I have a strong command of programming languages such as Java, Python, and JavaScript, along with frameworks like Android Studio and React. My ability to work on both Android and web platforms allows me to create versatile and user-friendly applications.
